## **USEFUL TIPS FOR PARTICIPANTS**

1. Adequate training in a swimming pool or trying to swim in open waters for at least 40/50 min.
2. Have a light breakfast, rich in sugars and poor in fats; don't drink alcoholic beverages before the competition.
3. For the swimmers not wearing wetsuits, we recommend lanolin and camphorated oil (both purchasable in a pharmacy).
4. Start moderately and try to find your own breathing rhythm before forcing the pace.
5. The safety balloon must be tied to the waist and kept at a distance of approximately a metre from the body, avoiding to use it as a life belt, since it increases the attrition with the water and it prevents moving forward.
6. In case of excessive breathlessness, stop and catch breath using the balloon as support.
7. Any possible request for help in the water to the closest rescue boats, must be performed maintaining aloft an outstretched arm and using the buoy to hold up.
8. The organizers decline any responsibility regarding thefts or loss of valuables, purses, watches, clothes, etc. in the race bags that you will receive upon enrollment during the race.
